**Dedicated to the improvement of our community through awareness and involvement in local issues**  
**(FREE) Local News for the Highgrove Area February 2015**

## Breast Cancer delays, but does not stop Highgrove Happenings Newspaper!

By R. A. "Barney" Barnett

Many of our readers know that my wife, Ardie Barnett has been going through chemotherapy since she was first diagnosed with breast cancer in July of 2014. Ardie and I have worked as a team for the last 20 years and each one of us has our areas of expertise that enabled us to bring local news delivered to your residence or business free of charge. You will see articles and photographs that are exclusive to our community and the surrounding communities. We have no subscriptions and our papers are not for sale because they are free to pick up at the businesses that advertise with us. Some of the local businesses have advertised with us continually since we started back in 1994. Without their support we would have not been able to bring information to you that affects our community because local advertising is what allows us to pay for expenses related to the printing and delivering of your local monthly paper.

We are definitely a "Mom and Pop" business. When Ardie was unable to sit at the computer we looked for other people to help us.

And in our Sept. 2014 issue we printed a notice that changes may be coming. We decided that the October 2014 issue would be the last one for 2014 due to her health and we did not print a November or December 2014 issue. And we also did not print a January 2015 issue. But the fact that you are able to read the February 2015 issue is a testament that she is now on the mend after her surgery even though radiation and more chemotherapy may be required.

We want to apologize to you for the interruption and thank you for your calls and e-mails and well wishes, and for understanding that we needed to put everything on hold due to the circumstances.

Please keep our papers handy to find the local businesses that make the Highgrove Happenings possible and stop by their business and thank them for their support by buying their products or services they provide.

We thank you for your understanding. Remember, our paper not only brings you free local news but it will also fit in the bottom of your bird cage!

The Riverside Eagles Aerie # 997 had 40 people participate in the Breast Cancer walk on Oct. 25, 2014. Thanks to the organizer Lori Carlstrom, \$9,456.50 was given to the Susan G. Komen Cancer foundation. The quilt being held by the people was made for Ardie by her daughter in-law's step mother Martha Sybesma in Hull, Iowa. What a nice gift to receive!

Grand Terrace city council member Jackie Mitchell brought her family and friends. They were dressed in bright pink and had pink balloons.

## Tumbleweeds invade Highgrove!

Living across the street from an empty field may make for a quiet neighborhood but when the wind blows in the wrong direction the tumbleweeds go with the flow! This is what happened to the houses on the north side of Spring St. on Dec. 12, 2014. The fence helped but the tumbleweeds had to be cleared

away so they could get in and out of their driveway. Some of the tumbleweeds blew northward onto Michigan Ave. and were crushed by passing cars that made a mess in the street. The block wall on the north side of Spring St. between Michigan Ave. and Mt. Vernon Ave. was lined with tumbleweeds.

The house on the corner of Spring St. and Michigan Ave. had so many tumbleweeds the owner couldn't get out of his front door. The owners had to pull them away from the

house. The county flood control removed the tumbleweeds from the culvert and the county Dept. of Transportation later removed these tumbleweeds. Cont. on P. 11

(A minimal transaction fees will be applied)

# HIGHGROVE HAPPENINGS

## Citrus St. grade crossing improvements on Perris Valley Line

I think these signs were trying to send a message that the road was closed!

The grade crossing at Citrus St. was closed on Nov. 11, 2014.

A new center divider has been added to the middle of the Citrus St. railroad crossing between Northgate/Prospect and the new Iowa Ave. overpass. This railroad grade crossing is part of the improvements on the Perris Valley Line. Center dividers and dual gates are designed to prevent motorists from driving around the gates.

With both lanes in both directions blocked by gates, the only thing to do is wait for the train to pass and the gates to go up. This applies to pedestrians too! The old clickity clack of the railroad track is gone because the

old rail that used to be bolted together will be replaced with new heavier rail that is welded together. There will be no sound of the wheels going over the rail joints because there will not be any joints. The new 131 lb. rail will enable future Metrolink passenger service on the Perris Valley Line between Riverside and Perris. In addition, freight trains will be able to come from Los Angeles, go around the new curve at Highgrove and go right onto the Perris Valley Line instead of going to the San Bernardino freight yard first then returning to Highgrove.

# HIGHGROVE HAPPENINGS

## Warehouse fire in Grand Terrace closes freeway

These photos were taken on Nov. 18, 2014 shortly after the warehouse fire that closed the northbound I-215 freeway by the Barton Road exit.

The building was full of delivery and service trucks that were completely destroyed by the extensive heat of the fire. All interior contents were lost.

The freeway was closed because the west wall of the warehouse was leaning toward the freeway and only held together by a few pieces of rebar at the top. This building is right next to the northbound I-215 freeway and in this photo, it shows that it is about ready to fall. The I-215 freeway was closed for northbound traffic so the west wall of the building could be removed safely.

The cause of the fire is being investigated but the west wall of the building

has been dismantled and the freeway re-opened. The front of the building didn't look too bad from a distance but the inside had extensive damage. If you look closely you can see that the top of the building was melted. This attractive building is on Commerce Way in Grand Terrace and is accessible from Michigan Ave. by the skating rink across from Stater Brothers. It may have not have mattered in this warehouse fire, but when is the last time you checked your smoke detector batteries in your house?

## More Apartments on Center St. connected to sewer system

Highgrove's first sewer line down Center St. has seen another residential connection. The Highgrove Blossom Apartments are connected to the sewer system and five apartment units across from the school have also been connected. The sewer line runs from the library, that is also connected, westward down Center St. then turns southward along East La Cadena Dr. and connects to Riverside's sewer system at Palmyrita Avenue.

Steel plates covered the holes shortly after the connection. The pictures of the connections were taken on Nov. 3, 2014 but these connections have since been completed. Other previous sewer connections include the Chevron Service Station at the corner of Center St. and Iowa Avenue.

Workmen dug down with a backhoe on Center St. across from the school to connect the apartments to the main line that runs down Center Street.

At the next Highgrove Municipal advisory Council meeting on Feb. 18, 2015 at the library, our agenda will include information about the cost to connect to the sewer system. The meeting starts at 7:00 pm.

Center St. residents and businesses located along Highgrove's first sewer line from the library to East La Cadena Drive will be able to ask questions about the connections. The new homes in Spring Mountain Ranch also connects to the Riverside sewer system but the Norton Younglove Community Center received special permission to connect to the Colton sewer line that runs down Main Street.

## New Curb and Gutter part of Spring Mountain Ranch improvements

New curb and gutter is part of the Spring Mountain Ranch improvements. This photo shows Center Street east of Mt. Vernon Avenue.

This machine makes the curb and gutter. This was taken on Jan. 6, 2015 next to one of Highgrove's last orange groves north of Mt. Vernon Ave.

On Jan. 6, 2015 workmen were doing the finishing touches on the north side of Center St. on the N/E corner of Center St. and Mt. Vernon Avenue. There will be 4 new traffic signals on Mt. Vernon Ave: one at Palmyrita Ave., one at Pigeon Pass Road, one at Spring St. and one at Center Street. The model homes are ready for you if you have not already been to see them. Access is from Mt. Vernon Ave. and Pigeon Pass Road. Here is your chance to get a new home and have your choice of lots!

Mt. Vernon Ave. has been widened between Center St. and Spring Street. The Spring Mountain Ranch project will eventually add 1,409 new homes when completed but they will be built in sections. The current builder is KB Homes.

The street signs in Spring Mountain Ranch will have the Highgrove logo at the top like shown at right.

## Flabob Airport celebrates Veterans Day!

Airplanes, car show, food, tractors, antique pumps, airplane rides!

There was something to do for everyone and this was a great day!

My brother, Ron Barnett from Grand Terrace, and I wanted to take a ride in a bi-plane but there was over a three hour wait because it was so popular so we just spent the rest of the day looking at the displays.

This was just one of the several bi-planes available but we did not get to go up that day. The last time I went up in a bi-plane was in Maui, Hawaii when we flew over the shoreline and could see whales swimming below.

## Racing planes, tractors, pumps, and a car show!

This was a beautiful racing plane named the "Grosvenor House"

And this one is a "Twin Row Wasp" that I had never seen before.

There was also a good collection of old farm tractors on display.

These old water pumps were fun to watch and hear them pop and spit!

### What are these people doing?

### Painting the hills Green!

The Plein Air Artists of Riverside (PAAR), an Artist Group of the Riverside Art Museum (RAM), invites you to participate in PAAR's 10th Anniversary Extravaganza Celebration & Paint-Out, April 11 – April 22, 2015. The theme is "Loving the Landscape." To kick off the celebration on Saturday, April 11 and Sunday, April 12, there will be four (4) mini-workshops (2 each day) at RAM with the following accomplished artists: John Budicin, Oil; Brenda Swenson, Watercolor; Sally Strand, Pastels; and Chuck McPherson, Mixed-Media. (Unless there is space available, these workshops are offered first to PAAR members only at a special PERK price.) Also that weekend (April 11-12) there will be 20 art supply vendors exhibiting at RAM.

From April 13th through April 22nd artists will paint plein air in Redlands at the Redlands Bowl, the Smiley Library, and other historic and beautiful sites. These ten days of painting will follow the methods of the French Impressionists, who sought to capture the light and atmosphere of the scenes before them. The Paint Out reception will be held at the Alumni House of the University of Redlands on Thursday, May 7th.

PAINT OUT REGISTRATION FEE is \$45 registration for members of PAAR. All registrants must be members of PAAR. Register for the PAINT OUT by March 15, 2015. Note: This fee does not include any workshops. You may enter the Paint Out on the day of registration for an additional fee of \$5, plus the RAM and PAAR dues, if we have not reached our limit of 75 participants. Late applicants may not receive all data materials offered to pre-registered artists

WORKSHOP FEES: There is a \$40 registration fee for each workshop (for example, the fee for the 4 workshops is \$160). All workshop fees must be paid by February 15th. You may choose to pay your fees over time as long as the fees are paid in full by February 15th. Workshop fee for anyone not a PAAR member: \$75 per workshop, if there is space available.

All fees are non-refundable and all workshop fees are non-refundable after March 1, 2015. For more information contact the Event Chair, Luz Maria Perez, luzperez2008@sbcglobal.net, 909-225-8306

# HIGHGROVE HAPPENINGS

## Phil's Philosophy

by Phil Turner

### Hit and Run

What makes a person hit and run? There are several basic answers to the question.

Drunk, or impaired driving, unlicensed/un-insured driver, un-registered car, Illegal alien, stolen car, road rage, or un-caring, driver.

These all have one thing in common: They are all Illegal.

A drunk driver doesn't have the good judgment to make a good decision about stopping to swap information, offer assistance, or do the right thing.

Someone driving illegally whether an illegal alien, unlicensed, or uninsured, makes a conscious decision to drive without documentation. A driver of a stolen car is obviously not going to stop, because the only outcome for him/her is jail.

Road rage and immaturity can alter the judgment, especially if there is no thought but to get away. I once had a friend that was married to a woman who was bipolar. I can mention this because my friend has passed away, and his wife no longer lives in the U.S. She was driving on the freeway behind a driver who she judged to be driving too slowly. She whipped around the car, stopped in front of the offending driver, and got out of her car to confront the driver. It is unclear what exactly what happened next, but she ended up jumping up and down on the hood of that car. The police were

called, and when they arrived she wanted the Highway Patrol officer to arrest the driver of that car. Well guess who got arrested?

This is a perfect example of someone who was driving while impaired. In this case she was off of her medication, instead of on drugs or alcohol.

Driving while impaired, road rage, and driving a stolen car, are all very obvious felonies. Serious jail time and/or fines are levied against such drivers.

The most preventable of the hit and run drivers are those driving without a license, the un-insured, and illegal aliens. Some of these people are just thoughtless, and don't want to take the time or responsibility. Some feel they can't afford to buy insurance, or take care of a fine.

Recently the governor signed a bill making driving licenses available to illegal aliens. I believe illegal aliens should not even be in our state, licensed or otherwise. But, it should be the responsibility on these people to get licensed, insured, and registered.

I recently visited the DMV to register a car I bought out of state. I wasn't even asked if I had insurance. So part of the problem is actually enforcing the laws we already have. The last four accidents that our family vehicles have been involved in were uninsured drivers.

Cont. on P. 11

### Highgrove Municipal Advisory Council meetings now on third Wednesday at 7:00 pm

The community meetings that have previously been held on the 4th Wednesday of the month have been moved to the THIRD Wednesday of the month at the Highgrove Library located at 530 Center St. in Highgrove. The Highgrove MAC moved the meetings up a week so there would not be a meeting on the night before Thanksgiving. In the past, our November meeting was the night before Thanksgiving which put a strain on residents, MAC members, and other participants from attending due to preparing for the next day or being away visiting friends or relatives for Thanksgiving. **The public is invited to the next Highgrove community meeting on Feb. 18, 2015.**

Zorbas Vince Yu appointed to Highgrove M. A. C.

Vince Yu

Riverside County Supervisor John Tavaglione appointed Vince Yu to the Highgrove Municipal Advisory Council.

**The Highgrove MAC meets at 7:00 pm at the Highgrove Library on the third Wednesday of the month on Feb. 18, 2015.**

What is being built on at the corner of Main St. and E. La Cadena Drive?

Sunstate Equipment Rentals is building a new facility on the N/E corner.

# HIGHGROVE HAPPENINGS

## Billy Barnett making his mark on America!

My son Billy Barnett is a tattoo artist and owns his own shop in Cardiff by the Sea, near Encinitas. His shop is a great location where he can look straight out at the ocean.

He has owned his own shop since Nov. 5, 2011 and has 3 employees. He is a great artist and has been doing tattoos for about 20 years. Billy was a former box boy and checker at the old Stater Bros. in Grand Terrace. Give him a call or stop in and let him make his mark on you!

(760) 753-8282

Billy Barnett at the Manchester Preserve in Encinitas, California.

Billy and I took a walk in a wildlife preserve near his house in Encinitas in an area that is primarily used for hiking that was part of an Eagle Scout project in the Manchester Preserve by Jeff Makins of Troop 777.

## Riverside County Flood Control cleaned the ditch on Spring Street

Workers removed the tumbleweeds from the drainage ditch where they were loaded onto a dump truck, crushed, and hauled away. Cont. on P. 12

## Phil's Philosophy

Cont. from P. 10

Three of those drivers were illegal aliens with no insurance, no license, and no registration, and two of those drivers were drunk.

Assemblyman Mike Gatto has proposed a bill that would put the

details of hit and run drivers on the freeway signs, very much like we see for an Amber Alert. Gatto said. "If we can put a sign on the artery when people flee the scene, there will be a much greater chance of apprehension."

# HIGHGROVE HAPPENINGS

## California Dreaming

by Dr. Cynthia Williams

It's February and Valentine's Day will take our thoughts to hearts, flowers and boxes of chocolate (make mine dark, please). We talk of love, plan elaborate romantic nights, and look deep into our dearest one's eyes and promise undying devotion.

When we talk about hearts it's not just about romance. Hearts experience so much more. They feel full of love for our children; feel tender for our parents; break when someone dies; are crushed when someone rejects us; and experience that soaring feeling when the first flush of a new love is upon us. The feelings are deep in the center of our chest, sometimes taking our breath away. Our hearts feel so full they seem to spill over; we talk about our heart exploding in our chest from the depth of emotion. Strength of mind, spirit, and soul is measured by a description of the size of the heart. When someone has determination and spirit we say "he has a lot of heart." If a person is generous, "she has a big heart." To be called a "Grinch" is to be said to be a mean one and your "heart's an empty hole."

The physical strength of the heart is a blessing. It works harder to take you up the hill, run faster, lift more, and keep up with the toddler. It beats faster when you are aroused, when you are frightened, and when you are angry. The heart beat of the embryo is the first real sign of life and it is the last sound we hear when our bodies are done with this earth.

"During an average lifetime, the human heart will beat more than 2.5 billion times. Even at rest, the muscles of the heart work hard—twice as hard as the leg muscles of a person sprinting. The heart pumps about 1 million barrels of blood during an average lifetime—that's enough to fill more than 3 super tankers." \*

Hearts can be abused as well. Feeding them high fat, high sugar foods; smoking and not working

them out enough will ruin them prematurely. Alcohol and drugs can cause the heart to beat wrong and sometimes stop mid stride. A "heart attack" is actually the blood vessels of the heart being compromised in some way. The lack of blood flow and resulting loss of oxygen to the muscle is what causes the severe pain. The muscle tissue dies and there is a decrease in the strength of the heart. Too much damage and the heart is permanently compromised. Severe damage and the heart stops--sometimes for good.

How to keep the heart healthy and happy? Start by feeding it well. It likes lots of fresh fruits and vegetables, whole grains and plant based fats. Avocados, almonds, and olive oils are sure things. Avoid the foods that distress your heart- meat, saturated fats, processed foods and refined

sugars and flours are not in your heart's best interest. Keep it beating at a good level. Take your heart for a 30 minute walk every day. Let it take the stairs instead of the elevator. Park in the back row and have your heart walk the little extra distance to the door of the store or work.

Open up your heart and let the light in and the love out. Let your heart feel the sensation of bursting with love and then allow it to share the love it has inside. Love is abundant and responds to the laws of supply and demand. The more you share, the more there is available.

Lastly, allow your heart to rest in the grace of the universe. Breathe and relax; listen to it and feel it. Appreciate it and thank it for the terrific job it does for you every day. Allow it time to just beat and be in the moment and listen to the sounds around you and your heart will be happier and healthier for it.

And so will you.

Happy HEART day.

## Construction continues on Perris Valley Line

Grading for the curved track to connect the Perris Valley Line to the BNSF main line at Highgrove was underway when this photo was taken on Nov. 2, 2014. The Metrolink train above is shown going through Highgrove between San Bernardino and Riverside. Future Metrolink trains going around the new curve will not stop at Highgrove and neither will the existing train shown above, according to RCTC's plan.

The track on the right is the existing Perris Valley Line track and this is where the future curved track will connect to the Perris Valley Line railroad track. The vegetation on the left is in the Springbrook Arroyo. The old track dates back to the 1800's and will be replaced with new ballast, railroad ties, and heavier rail to allow future Metrolink train service between Riverside and Perris.

Since the new curved track connection is near the Springbrook Arroyo, the banks of the arroyo have been re-inforced with concrete and steel.

This is a close up of the concrete and steel retaining wall over the east end of the Springbrook Arroyo on the Perris Valley Line Railroad track.

## WE HAVE A WINNER!

Jasmin Delgado who is 9 years old and attends Highgrove Elementary school.

She is in the third grade and her teachers name is Mrs. Diersen.

Jasmin is the daughter of Karla and Juan Delgado from Highgrove.

Good luck to the next winner and be ready to give us 30 words to be used in the next paper.

Maybe you will be a winner!

## Advertising rates

The "Highgrove Happenings" advertising rates are the lowest rates in town. If you have already trained your dog to bring in the paper (like the one on the right) you can be assured that he won't be lifting anything too heavy by bringing in our little newspaper. Some of the other larger newspapers are wasting just too many trees, especially in their Sunday edition. No one should ever ask their dog to lift something that heavy! Our little paper has lots of local news and we take pride in providing you with something free of charge that will fit in the bottom of your birdcage! Give us a call (951) 683 4994 or check out our web site for pricing and sizes of our ads. Go to [www.highgrovehappenings.net](http://www.highgrovehappenings.net) and click on the contact us page.

## Call us !

We have no reporters so we are asking for your help. You can be a reporter by just giving us a call or sending us an E-mail or a picture. Small town news is what we are all about and we want to encourage you to participate. We try to print positive things since there is so much bad news on TV and in other newspapers. Send us a story, take a picture or call us about something that is happening in Highgrove. (951) 683 4994

Please visit our Highgrove Happenings website:

[www.highgrovehappenings.net](http://www.highgrovehappenings.net)

Keep in touch: Send us your e-mail addresses to help us keep you informed of activities and projects that effect our community. Send your address to:
