## Next MAC meeting July 27, 2011

The next community meeting of the Highgrove Municipal Advisory Council will start at 7:00 pm at the new library in the community room. This is your chance to participate in your community meeting and learn what is going on in and around Highgrove. Our monthly meetings were recently changed and now we only meet every other month instead of meeting monthly at the community center. The community meetings will be at the new library on the south/west corner of Center St. and Michigan Avenue. We hope to see some new faces so please come and ask someone to come with you.

## Invisible Populations: Home Away From Home

Jessielee Coley

When does a house become a home? A house is shelter from the elements, a residence in which you return to after your daily endeavors, a place to cook a warm meal; but a home holds a deeper meaning. The saying, "home is where the heart is" is a perfect phrase for this debate. Home means family, love and trust.

Our society calls those without shelter homeless, but who are we to say that these individuals are lacking family, love or trust? Family also has a deeper meaning in this scenario. Family is not just those who are related by blood, but those who are there for you through thick and thin. The houseless, shelterless people in Santa Barbara, my friends without houses, form an unbreakable community that is made stronger daily through our society's ridicule and hate. People need to show the "homeless" more respect and kindness because we are all one disaster away from being houseless.

Hatred directed towards the homeless population stems from ignorance and stereotyping. Substance abuse does cause homelessness, but so does mental instability and chronic illness. I have seen countless patients with an array of health issues including cancer, Lupus and diabetes. These illnesses are expensive to treat and often times medical bills steer patients to the streets.

In an effort to break stereotypes and spread knowledge about this population, Homeless Awareness Week will take place during the month of May. This event is co-sponsored by Street Health Outreach, a UCSB campus organization, and Doctors Without Walls- Santa Barbara Street Medicine. The event will span over three nights and will begin with panels debating controversial topics regarding homelessness and end with a documentary on various issues. The documentary "One Bridge to the Next", which gives an inside look on Jim Wither's Operations Safety Net program in Pittsburgh, Pennsylvania will be played on the last night. Jim Wither is an important figure in street medicine, he coined this term and his program is the model behind many other organizations. His documentary gives an inside look at the meaning of community and the connections that can be made by working with groups like Operation Safety Net and Doctors Without Walls- Santa Barbara Street Medicine. Though these individuals do not have homes, they have the strongest understanding of community.

## Highgrove Day May 7, 2011

Something for everyone, that was what it was all about. The day before Highgrove Day, Friday May 6, 2011, vendors were allowed to set up their E Z Ups and claim their spaces and two 40 X 40 Canopies were erected by J Z's Party Rentals. The north canopy was for the kid's zone and the south canopy was for the stage, dance floor and other performances.

On Saturday May 7, 2011 the pancake breakfast started inside the Norton Younglove Community Center at 7:00 am at the same time that the gates opened for the car show on the north end of the Highgrove Community Park. Other vendors and cars entered the park and the opening ceremony was held at 9:00 am with welcome comments by R. A. "Barney" Barnett and Riverside County Supervisor Ashley.

Hawaiian number and the dancers from North High School performed a Spanish Dance with beautiful costumes.

At 1:00 pm the Riverside County Sheriff Department K-9 unit performed inside the Woof Gang Dog's grassy area in a demonstration with their dog named Spike. Deputy Colbert wore protective padding on his arm and played the part of the bad guy while Deputy Noyes was the Sheriff. As long as the bad guy did what he was told, the dog stayed by the Sheriff but when the bad guy did something wrong or didn't obey the Sheriff, the dog went after the padded arm of Deputy Colbert. The dog will stay attached to the bad guy until the Sheriff gives the dog the release command. All this time, the dog is wagging his tail because he is trained to consider this as a

jumping over the obstacles, getting the ball and returning to the start/finish line.

The car show awards were at 2:00 pm under the south canopy and 26 awards were handed out to the winners. By Saturday evening everything was taken down and the park was clean except for the cardboard trash containers provided by Waste Management.

On Saturday morning I was grateful to have 2 scout leaders, Paul Kaneski and Diane McLaughlin who I had never met, volunteer to assist at the entry gate with the show cars and vendors when I had to leave. Later, I was very happy to see Paul win a floor jack and

Diane win the table and chairs. I guess good things happen to good people because these 2 volunteers deserved to win something!

We want to thank all of you who participated in the programs and those of you who attended just to see what was going on and get something to eat. As you can see, we had a big day on Highgrove Day. I know I may have missed thanking someone for helping but if I did, my apologies.

We had good weather, a good turn out and hope you all had a good time!. Mark your calendars for the Saturday before Mother's Day in 2012. Thank you all! The Highgrove Day Committee.

The students from Highgrove Elementary School each had a letter of HIGHGROVE on their backs and spelled out HIGHGROVE by turning around to the words of the Highgrove song performed by "Barney" and Ardie Barnett. We had difficulty with the sound system and ended up doing the song and dance twice.

The Highgrove Elementary School Dancers also performed a

"game" for him to play. Spike was even lifted off the ground by Deputy Noyes while he was attached to Deputy Colbert's arm because the dog hadn't been told to let go yet! This was a very interesting demonstration of how well the dogs have been trained.

After the K-9 demonstration the Woof Gang Dogs performed again followed by children who were allowed to also run the course by

Deputy Dean Colbert, acting as the bad guy, is shown on the left as "Spike" grabs his padded arm during the K-9 demonstration. In the right photo, Deputy Heath Noyes is shown lifting "Spike" clear off the ground but the dog is still holding on because he has not been issued the release

command. The dog is wagging his tail all of the time because he thinks it is a game. Everyone enjoys the dogs whether they are racing up and down the obstacle course as part of the Woof Gang Dogs or watching "Spike" follow the commands of the Sheriff to go after the bad guy!

**Another use for Old Library building?** We received another suggestion from Jeff Garcia for the use of the old library building "I would suggest a gift shop with healthy snacks and school supplies for the kids going to or coming from the school and new library. This would prevent school children from having to walk all the way to the mini market on Highland Ave. and then having to go across Center St. where there is a lot of traffic."

## DEVILS DEN

by Dennis Wilds

### Jean's Motorcycle Story

Goleta sits north of Santa Barbara, California about a fifteen minute ride by car. By bike the ride into Santa Barbara could take a good hour or more, mostly uphill. In the center of the beach area sits the City College and site of the nursing school. If Jean could get accepted, she still had the problem of reliable transportation to solve too. To top it off, Jean was afraid to drive a car and relied on her bike alone for transportation. On the subject of school, Jean's education stopped at grade eight in Oklahoma which left grades nine through twelve to learn before being qualified to take the nursing program entrance examination. It just so happened that I had a college girlfriend who was pretty darn sharp and easily bribed so I sent her to take Jean's nursing school entrance exam and all it cost me was a \$25.00 portable television set in return. While that's another story, suffice it to say Jean entered nursing school at the top of her class. Now there was the problem of transportation which I solved by buying Jean a Honda 90 step thru motorcycle with a book rack and a centrifugal clutch. Jean took to it like riding a bike and off she went to nursing school that fall. Rain or shine, Jean rode that motorcycle back and forth thru Santa Barbara wearing her helmet and nursing uniform for the next two years. Now that's college the hard way, but she did it and to this day I am as proud of my big sister as I am of any of my family for making up for four years of high school while getting a nursing degree. How's that saying go,

"How's that jar of your mama's preserves?" Or as I like to say, "Mmm-mmZundappe.....".

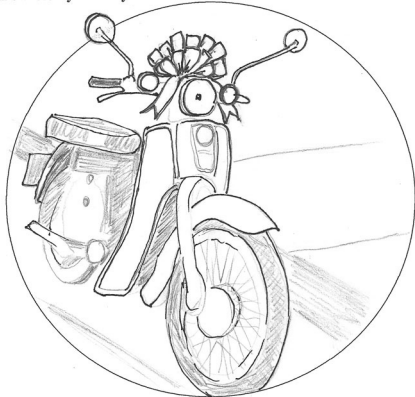

Over the next years I traded my Zundappe cycle in on a succession of Hondas, Kawasakis, BSA's and even a few Harleys and Jean traded up to real cars after nursing school. In fact, after a full career as a nurse, Jean drove a few years cross country in big rigs and I think she did this just to prove to herself that she could drive anything anywhere. I think she really was just expressing her independence and self esteem to the max though. This brings me to last year when I was telling Jean about my cruise to Alaska and she told me that Alaska, along with Hawaii, is the only state she never drove to. I listened and heard a touch of regret in her late seventy year old voice, and Zundappe, guess who is going to Alaska on a cruise this August? Mmmmm...Zundappe.

For these stories and more from the beginning go to [www.braspearl.com](http://www.braspearl.com) and click on the tab "Devils Den" where my loving wife has placed the entire collection of stories and illustrations on her art web site. I hope you enjoy reading them as much I have enjoyed writing them.

"Jean's Motorcycle Story"

## A "LOVING" LOOK AT POLITICS

by Jerry Loving Illegal Aliens: Who's guarding the gate?

It is obvious that California has an illegal alien problem according to the Federation for American Immigration Reform (FAIR).

In 1994, illegal immigrants cost California taxpayers almost \$8 billion in providing them with an education, health benefits and the policing of them entering the State and almost \$11 billion per year since then. Even I, as a researcher, was astounded when I saw these figures. And, to make matters worse, it will still cost this much or more in future years. So, we should ask, who has the authority to shut the gate on these illegal immigrants?

In demonstrating where most of the tax dollars go, over \$8 billion goes to educating the children of these aliens. And our education leaders can't understand why our classrooms are overcrowded? Give me a break! We also shell out another \$1.5 billion to incarcerating these aliens. Farmers insist that paying an alien for working is cheap labor but it is almost bankrupting the State. Proposition 194 set a limit on the liability these aliens may cause. Yet, state, county and local governments, blatantly ignored the voters' wishes and continued to provide a wide spectrum of benefit to the aliens at the tune of \$1,200 per family. That is money out of your pocket that could go to providing benefits for your family.

And to make matters worse, we

pay dearly for the process to allow 1.1 million legal aliens to enter the State. State leaders want to reduce this figure to about 300,000 aliens per year. Yet they know it will NOT stop the flow of illegal aliens. Therefore, for every action, there is a reaction.

If we try to stop the process, the cost of farm goods would go thru the roof. We have a tough enough time buying groceries each week. No one can estimate the cost at the cash register when you buy products that were once handled by illegal aliens. Don't try to grow your own vegetables because it will cost you more for the seeds and fertilizer to grow them than buying them from the grocery store. I know firsthand, I tried and failed.

It seems there is no adaptable solution to this problem but with many of us working more than 40 hours per week to just survive, it will continue to hit us in the wallet.

In conclusion, one of the first steps should be to secure the borders of our country to those who enter our country illegally. The next step of what to do with the illegal aliens who are already here is also a major political issue that is growing every day.

Owner: Richard Sentieri, Redlands, Ca.

The photo shown above is a High Dynamic Range photo by Shaw Photography that was taken from an actual photograph in the park. The winner was presented with a 16" X 20" photo of his car and the "Best of Show" trophy shown below.

The 2011 trophies had pictures of the last 3 "Best of Show" winner's cars on them: From 2008: Bill Skinner-1956 Chevrolet; 2009: Dick Hathaway-1932 Packard and 2010: Jim Benson: 1932 Ford. A list of the other 25 car show trophy winners is on page 12. The trophies were made by Bryan and Priscilla Powell who also own "Sounds Divine" that is the DJ company we used for music throughout the day in addition to the music played by the Riverside Concert Band. Bryan also did a fine job of announcing during the day and gave his microphone to the Woof Gang Dogs and Sheriff K-9 unit for their use during their programs.

## Biggest Hit with the Youngest Kids

The biggest hit at Highgrove Pony this spring has been the Shetland (5-6 yr old) division. "These kids can play and our coaches have done an outstanding job developing these young players" stated Greg Apprill, Highgrove Pony president. "Both teams, the Braves and Angels have done a great job."

The Shetland division is the youngest Pony division with players primarily 5 and 6 years old, both boys and girls together. This division plays a combination Pony certified pitching machine, coach pitch and hitting off a batting tee. Coaches are allowed on the field while a team is in the field to assist players.

At Highgrove in the Shetland division, we see brothers and sisters playing together, moms coaching sons, etc. "All are players and all players are welcome" said Shetland Angels manager Gabriel Pino. "We teach kids basic fundamentals and how a baseball player should be a player". At the Shetland level, all aspects are taught from baseball rules to how you should get ready in the on-deck circle.

Thank you Shetland Coaches, Team Moms and Parents for your time and patience teaching our youngest players the game of baseball.

Spin and win: Just spin the wheel and win a free prize according to the pointer. We gave out a lot of free prizes and the wheel was very popular.

Photo by Shad Boal

The weather was perfect and there was a good turnout. We handed out programs showing the times and location of the events throughout the park and community center and we had a lot of positive complements. 280 nice prizes were given out-plus hundreds more in the spin and win.

The Highgrove Happenings Newspaper had four E Z up's together; shown on the right, that was used as an information center where the prizes and car show trophies were on display. By the time this photo was taken a lot of the prizes had already been given out. The canopy at the top center is a 40' X 40' canopy where a stage, dance floor, and chairs were set up where the Riverside Concert Band played patriotic music. There were chairs set up for the band and for people to sit and watch performances by the dancers and the Yo Yo demonstration. There was another 40' X 40' canopy at the north end of the park that was set up for kids where there were games, face painting, a balloon twister and a nearby jumper. The kids seemed to have a good time in their own zone. We had good weather on Friday for set up day and all day Saturday for Highgrove Day.

## FINANCIAL FOCUS

**Investing beyond Short-term CDs**  
**Article 7 — May 30, 2011**

Many people depend on certificates of deposit (CDs) to provide extra income. Yet CD rates have been fairly low for a while. In recent months, in fact, one-year CDs were paying about 0.5%, two-year CDs topped out at around 1%, and five-year CDs paid in the 2% to 2.3% range. Those rates are scanty enough, but they can seem even lower in an economic environment marked by rising food and gas prices.

Before you consider alternatives, keep in mind that CDs still offer a key advantage: safety of principal. The Federal Deposit Insurance Corporation (FDIC) typically insures CDs up to \$250,000. And since CDs are relatively short-term in nature, you don't have to worry about locking away that money for long periods of time. So there can be a place for CDs in the fixed-income portion of your portfolio.

However, during times such as these, you might consider looking at additional options, keeping in mind that, when seeking greater income, you'll likely be taking on more risk. Let's consider a few alternatives:

- **Fixed annuities** — Many people buy fixed annuities to supplement their retirement income. But most annuities also allow you to take up

to 10% of your account value each year without penalty. Plus, the interest rate you receive on a fixed annuity may be more competitive than that currently paid by a CD. Keep in mind, though, that annuities are not backed by FDIC insurance, and any guarantees are backed solely by the paying ability of the insurance company. Additionally, early or excessive withdrawals may be subject to penalties. If you believe a fixed annuity might be appropriate for your situation, speak with your financial advisor.

- **Bond ladders** — If appropriate for your situation, you can potentially gain extra income through a strategy known as a bond "ladder." To build a ladder, you buy several bonds with varying maturities — short-, intermediate- and long-term. Once you've constructed your ladder, you could gain some advantage in various interest rate environments. When market rates are low, you'll still have your longer-term bonds earning higher interest rates. And when market rates rise, you can reinvest your maturing short-term bonds at the higher rates. But if you need income in addition to your regular interest payments, you can get it from the maturing bonds. Unlike CDs, however, bonds are not covered by FDIC insurance and are subject to credit risks. Bonds

are also subject to interest rate risk: When interest rates rise, bond prices generally fall, and you may lose some or all of your principal if you sell your bond prior to maturity. But by holding your bonds until maturity, you can avoid loss of principal, assuming the issuer doesn't default.

- **Dividend-paying stocks** — Some companies have paid — and increased — their stock dividends for many years now. If you don't need the dividends to boost your cash flow, you can reinvest them to help boost your ownership stake.

However, companies can reduce or discontinue their dividends at any time, and since stock prices fluctuate, you risk losing some or all of your principal.

By exploring alternatives to short-term CDs, you may find other appropriate investments that may better position you to reach your financial goals — so look around to see what's available in the financial marketplace.

## Advertising rates

The "Highgrove Happenings" advertising rates are the lowest rates in town. If you have already trained your dog to bring in the paper (like the one on the right) you can be assured that he won't be lifting anything too heavy by bringing in our little newspaper. Some of the other larger newspapers are wasting just too many trees, especially in their Sunday edition. No one should ever ask their dog to lift something that heavy! Our little paper may not have much news in it, but we take pride in providing you with something free that you can put in the bottom of your birdcage! Give us a call (951) 683 4994 or check out our web site for the pricing and sizes of our ads or go to <http://www.highgrovehappenings.net> and click on the contact page.

## Call us !

We have no reporters so we are asking for your help. You can be a reporter by just giving us a call or sending us an E-mail or a picture. Small town news is what we are all about and we want to encourage you to participate. We try to print positive things since there is so much bad news on TV and in other newspapers.
